

GENERAL TERMS AND CONDITIONS OF SALE

1. CONTRACT

These Terms and Conditions are automatically incorporated by reference into any and all quotes, order acknowledgements or other commercial documentation issued by Hydro. Acceptance by Customer of any Hydro quote is expressly limited to these Terms and Conditions and Hydro objects to and rejects any different or additional terms provided in response. In addition, acceptance by Hydro of any Customer purchase order is expressly conditioned on Customer's agreement that its contract with Hydro is controlled by Hydro's quote, along with these Terms and Conditions, such that any additional or different terms provided by Customer are automatically voided, superseded and of no legal force or effect. No prior course of dealings between the parties or usage of trade shall be relevant to supplement or amend these Terms and Conditions. In addition, Customer's acceptance of the extrusions including any finishing, fabricating or other post-processing of the extrusions by Hydro sold to and purchased by Customer (the "Products") shall be conclusive evidence of Customer's acceptance of these Terms and Conditions. Any changes to these Terms and Conditions or other portions of the Contract shall not be effective unless expressly included in a Hydro quote, a Hydro order acknowledgement or otherwise in a writing expressly authorized by the Authorized Hydro Signatories of the manufacturing and selling entity. 17. DEFAULTS

If either party believes the other is in default or breach of any duty or obligation under the Contract, the party shall send written notice thereof to the remaining party. The defaulting party shall have ten (10) days after delivery of such notice to cure any monetary defaults and shall have twenty (20) days after delivery of such notice to cure any non-monetary defaults. Notwithstanding the foregoing, if a non-monetary default, by its nature, cannot reasonably be cured within such 20-day period, such period shall be extended so long as the defaulting party is diligently prosecuting such cure to completion. If the defaulting party fails to remedy the default within the foregoing cure periods, then the non-defaulting party may immediately terminate the Contract upon written notice to the defaulting party and pursue any and all remedies available at law or in equity. 18. TERMINATION

Either party shall have the right to terminate the Contract for convenience upon sixty (60) days' advance written notice. In addition, Customer may terminate any particular Purchase Order if it provides Hydro with at least ten (10) days' prior written notice. Any termination by Customer of the Contract or any Purchase Order shall also require it to reimburse Hydro for any and all damages reasonably incurred by Hydro in connection with its performance in filling Customer's Purchase Orders as of its receipt of the notice including, without limitation, any finished Products, safety stock, work in progress, raw materials and anticipated profit margin. Further, Hydro, in its sole discretion, may immediately terminate any particular Purchase Order or the Contract immediately by written notice to Customer, without liability or further obligation, if: (a) Customer breaches its obligations under the Contract and fails to cure this breach within the time period set forth in Section 17; (b) Customer fails or refuses to furnish Hydro with such information and assurances as Hydro may reasonably request about the drawings and Products, as well as Customer's financial condition; or (c) to the extent permitted by law, in the event of (i) Customer's insolvency or impairment of Customer's financial condition (as determined by Hydro in its reasonable discretion), (ii) the filing of a voluntary or involuntary petition in bankruptcy by or against Customer, (iii) the appointment of a receiver or trustee for all or substantially all of Customer's assets, or for Customer generally, (iv) Customer's execution of an assignment for the benefit of creditors, or (v) a comparable event occurring by or against Customer. The provisions of Sections 1, 3, 5-9, 12-15, 17 and 19-27 shall survive the completion of performance under, or earlier termination of, the Contract.

19. INTELLECTUAL PROPERTY; CONFIDENTIALITY

All drawings, prints, Equipment, resulting products, trade secrets and other confidential information provided by either party to the other including, without limitation, the Contract (collectively, the "Confidential Information") shall be used for the sole and exclusive purpose of allowing each other to do business together and shall remain the property of the party disclosing such Confidential Information. Notwithstanding anything to the contrary, any work product and intellectual property relating to the manufacturing or processing of the Products from aluminum (e.g., billet composition, casting extrusion processing including extrusion die design and extrusion tooling, and aging) shall remain the exclusive property of Hydro, even if developed after the parties begin doing business

together. Customer represents and warrants that it has the right to use Confidential Information it provides to Hydro, that such Confidential Information does not infringe on the intellectual property rights of others and shall promptly notify Hydro in writing as soon as it learns of any actual or alleged infringement. Customer hereby provides a limited license to Hydro with respect to any Confidential Information provided to Hydro in connection with the acquisition, development or construction for use of Equipment in the manufacture of Products for Customer or the manufacture of Products for Customer and such license shall continue until the later of Hydro's completion of manufacture of Products for Customer or Hydro's continued use of the Equipment pursuant to Section 9. The receiving party shall keep the Confidential Information confidential and shall not copy, exhibit or disclose it unless: (a) it obtains the prior written consent of the disclosing party; (b) such disclosure is required in order to perform the receiving party's obligations, or to enforce the receiving party's rights, under the Contract; or (c) such disclosure is required by applicable law or by legal, judicial, administrative or regulatory process, provided that the receiving party, to the extent not prohibited by applicable law or the relevant authority, promptly notifies the disclosing party so that it may, if it so elects, seek a protective order or other appropriate relief, in which case the receiving party shall reasonably assist and cooperate with the disclosing party. Except as otherwise expressly provided herein, the provisions of this Section 19 shall survive two (2) years from the completion of performance under, or earlier termination of, the Contract or the expiration of any trade secrets included within the Confidential Information, whichever is longer.

21. INDEMNIFICATION

Customer shall defend, indemnify and hold harmless Hydro from and against any and all claims, losses, damages, liabilities, costs and expenses including, without limitation, reasonable attorneys' fees, arising out of or relating to Customer's design of the Products, the end use or ultimate purpose of the Products, third party claims relating to the Products (to the extent arising from Customer's acts or omissions) or Customer's breach of its obligations under the Contract.

22. NOTICES

All notices under the Contract shall be in writing and shall be deemed to have been duly delivered if sent by certified mail, return receipt requested, by nationally recognized commercial overnight courier or by facsimile (so long as a copy is contemporaneously sent through one of the alternate means specified in this Section 22), addressed to Customer at its address listed in its Purchase Order and addressed to Hydro at its address listed in its quote. Each party may, from time to time, change its address for purposes

of providing notice hereunder by delivering written notice thereof in accordance with the foregoing provisions.

23. CHOICE OF LAW; CHOICE OF FORUM; SEVERABILITY

The Contract shall be governed by and construed in accordance with (i) the laws of the state of Florida without regard to conflict of law principles, for Products manufactured by Hydro, or (iii) the laws of the country from which the Products are otherwise manufactured by the relevant Hydro legal entity, without regard to any conflict of law principles that would require application of another choice of law. In addition, the parties expressly exclude and waive the application of the United Nations Convention on Contracts for the International Sale of Products (1980) (Vienna Sales Convention), as amended from time to time. All disputes shall be brought in the state and federal courts located in Florida, USA, unless Hydro elects to bring an action against Customer in another court of competent jurisdiction. If anything in the Contract is held invalid, the invalid portion shall be severable from, and shall not in any way affect, the remainder of the Contract.

24. ENTIRE AGREEMENT; MODIFICATIONS; NON-WAIVER

The Contract constitutes the entire agreement between the parties relating to the subject matter hereof and any prior agreements, whether verbal or written, have been superseded, merged and integrated into the Contract, except for any confidentiality agreement between the parties, which shall remain in effect to the extent not in conflict with the Contract. The Contract will supersede and have precedence over any terms and conditions contained in any other forms submitted by Customer even though Hydro may (without waiving its rights under this provision) provide services to Customer in response to the same. Any modifications or amendments to the Contract may only be made by a mutually executed written amendment, provided that Hydro shall only be bound by amendments executed by Authorized Hydro Signatories. No failure or delay by either party in exercising any right or remedy under the Contract shall operate as a waiver thereof, nor shall any single or partial exercise of any right or remedy preclude any other or further exercise of any right or remedy, nor shall the waiver of any breach be deemed to be a waiver of any subsequent breach.

25. INDEPENDENT CONTRACTOR; SUCCESSORS & ASSIGNS

Both parties acknowledge and agree that the parties are independent contractors and neither party has the authority to bind or make any commitment on behalf of the other. The Contract shall be binding upon and inure to the benefit of both parties and their respective successors and permitted assigns. Neither party may assign the Contract without the prior written consent of the remaining party, although Hydro may engage in such an assignment to any of its subsidiaries or affiliates without Customer's consent.

26. NO THIRD-PARTY BENEFICIARIES

The Contract is for the sole benefit of and binding upon the parties and their successors and permitted assigns; and nothing herein, express or implied, is intended to or shall confer upon any other person or entity any legal right or equitable right, benefit or remedy of any nature whatsoever under or by reason of the Contract.

27. LANGUAGE

These Terms and Conditions, along with all agreements and all other documents relating thereto must be in English language only.
